or

## Strawberry Patch Kids

The SBPK have been growing on the Ethereum Blockchain and are almost ready to be harvested! By joining the discord, you can begin picking strawberries daily for your chance to win giveaways and qualify for a redeemable airdrop. This airdropped NFT will give your SBPK increased benefits, if you so choose.

## Traits

Each Strawberry Patch Kid will grow to be randomly generated from a variety of characteristics. Make sure to look out for those chocolate covered strawberries, as they will have a specific role within our community.

## Farming Guide

## Community Garden

60% of the mint proceeds will be set aside into a community “garden” (wallet), dedicated to the funding and growth of the SBPK Farm.

## SBPK Airdrops

All SBPK holders will benefit from airdrops exclusively affiliated with the SBPK brand, as well as any collaborators or partners.

## Strawberry Merch

Strawberries are sweet, and our merch will be too! The brand is colorful, fun and will always remain community focused. That’s why holders will have exclusive, first-right access to claim merchandise at discounted rates or free of cost (plus shipping where applicable). The community will help in the design process for some pieces, while others will feature specific SBPK. If your SBPK is chosen to be used on any merch, you will earn a royalty on each sale.

## Charitable Donations

We believe in paying it forward and giving back! SBPK will be making 2 charitable donations to various foundations every quarter via a portion of secondary sales and treasury reserves.

## Giveaways

We will always believe in paying it forward and giving back to those within our community! With 25% of the collection sold, we will begin a 30 day “harvest” with daily giveaways. In total, we plan to give

out 10 Eth & 30 NFTs through both random and game based activities. More info will be announced in discord. There will also be a strawberry of the month chosen by our community at the end of the 30 day period, who will win a specific prize / opportunity.
